RISE 2 DIGITAL

YOUR WEB DEVELOPMENT & DIGITAL SKILLS PATHWAY

Rise2Digital is our all-new digital skills programme, designed to give you the best opportunity to enhance your digital skills - whatever your current skillset.

In our **Web Development & Digital Skills** pathway, you'll learn the fundamentals of website development, data analytics, systems analysis cybersecurity, computer programming and business processes, plus much more.

As part of your onboarding journey, you'll complete an initial assessment to give our dedicated career advice team an understanding of your ideal starting point. This will enable us to recommend the right programme for you, at the correct level of study, to begin your training.

LEARNER FEEDBACK

"My tutor was always there to help me when I needed it and I didn't feel like I couldn't ask or speak to her. I now feel more confident and comfortable about going back into work with my new skills and knowledge."

Jade Bailey

YOUR STARTING POINT

**Not sure where to start?
No problem.**

Our expert career advice team will ask you to complete an initial digital skills assessment. This will allow us to determine your recommended Level as a starting point.

This is nothing to worry about - everyone's knowledge and understanding is different.

We'll be able to quickly identify the recommended level for your skillset, to best place you to develop new digital skills to advance your career progression.

Once you've completed your recommended level of training, you can then move on to the next one. This allows you to increase your learning further, and gain multiple accredited qualifications to add to your CV in the process.
